OUR GOVERNMENT SERVICES

ANNUAL FINANCIAL STATEMENT AUDIT

CKH Group makes this annual requirement less arduous through our dedicated team of auditors who work closely with you to improve your processes year over year. Our experience with delivering government audits includes an impressive portfolio of government entities of all sizes across the Southeastern United States. This means we know how to help you navigate this process so you can avoid project delays or lack of community trust.

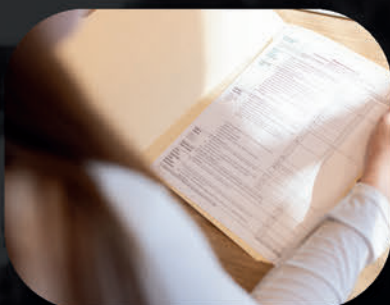

FORENSIC AUDIT AND OTHER ASSURANCE SERVICES

Our assurance support doesn't stop at standard financial statement audits. For government entities who may be larger, need specific support, or looking to identify risks before they become a problem, we can also provide other assurance services. These can include services such as single audits, interim audits, forensic audits, agreed upon procedures, tests of internal controls, compilations, or reviews. We aim to help you identify and resolve red flags.

GOVERNMENT ACCOUNTING

If you need additional accounting support to keep your financials up-to-date and audit ready, augmenting your staff with our accounting team is a great way to do so. We can support your monthly tasks such as bookkeeping, bank reconciliation, payroll reporting, and everything else that is required to be maintained with accuracy month-to-month. Let your clerks and government professionals focus on their core functions while we take care of it.

TAX COMPLIANCE - STATE AND LOCAL TAXES

We take the stress out of payroll tax compliance for your government entity. Our team makes sure all required reports are filed accurately and that payments are made on time, every time. We work with you to improve processes so deadlines are never missed. With hands-on support and practical training, we give your team the confidence to stay compliant and in control. Need to get caught up? We also provide remediation services to bring everything back into compliance.

ADVISORY AND CONSULTING

Beyond accounting, tax, and assurance, our breadth of knowledge is your advantage. If you need assistance with implementing appropriate quality control measures, preparing financial reports or updates, maintaining your financial records, or transitioning to a new accounting software, we can assist. Our goal is to streamline your operations, and set you up for success when it comes to the organization and management of your financials. We care.
